

# MRT Corp in talks with mall

"BUILD covered walkway from MRT Station" (Letters, June 7) refers. MRT Corporation thanks the writer for his interest in the project, especially in respect of the absence of a covered walkway from the Leisure Mall MRT Station to Cheras Leisure Mall.

We understand the potential issues from not having a link to the mall, such as commuters having to bear the heat or rain as a result of the absence of a covered walkway. Our studies have shown that most Malaysians, given the heat and humidity of our tropical climate, will willingly walk to a destination if it takes about five minutes.

Beyond that time frame, most would choose to either not go the intended destination, or take a motorised vehicle.

MRT Corp recognises the benefits of having a connection facility, be it to any public office block or stadium, an

However, we will need the agreement and cooperation of the respective property owners to

build a connection. The writer and other residents around the area will be pleased to know that we are currently in talks with the owners of Leisure Mall, with the intention of building connectivity to our station. The ultimate decision however rests with the building owners.

Rest assured that we will keep the *rakyat* informed of any latest progress of the MRT. Please visit our Info Centres and Kiosks, and our latest Info Truck to learn more about the MRT. For information on these, log onto [www.mymrt.com.my](http://www.mymrt.com.my)

We reiterate our commitment to public engagement to ensure that the MRT will improve the daily lives of the *rakyat*.
