

New traffic management plan

A TEMPORARY traffic management plan will be implemented in Jalan Bukit Bintang beginning on Monday for a month to facilitate pre-construction work for MRT.

Work will include utility piloting which will require night closure of one lane along Jalan Bukit Bintang between 11pm and 5am daily except on weekends and public holidays.

Piloting work will also be carried out along the pavement for 150m along Jalan Bukit Bintang.

Safety barriers, hoardings and traffic cones will be installed at the work site to warn road users.

For details, call the MRT hotline 1800 826 868, or visit www.mymrt.com.my.

Upon completion of the entire MRT Sungai Buloh-Kajang Line in 2017, the new MRT Bukit Bintang Central station will integrate with the existing Bukit Bintang Monorail station where passengers can switch from the Monorail to the MRT and vice-versa.
