

Bkt Bintang MRT works

TRAFFIC management plan has been implemented at Jalan Bukit Bintang for one month to facilitate pre-construction works for the Mass Rapid Transit (MRT).

Works at this location would include utility piloting which will require night closure of one lane along Jalan Bukit Bintang between 11pm and 5am daily, except weekends and public holidays.

Piloting works will also be carried out at the pavement for a distance of 150m along Jalan Bukit Bintang.

Safety barriers, hoardings and traffic cones will be installed at the work site to ensure road users and pedestrians are pre-warned of on-going works.

Upon completion of the entire MRT Sungai Buloh-Kajang Line in 2017, the new MRT Bukit Bintang Central station will integrate with the existing Bukit Bintang Monorail station where passengers can switch from the Monorail to the MRT and vice-versa.

For more information and feedback, call the MRT Hotline at 1800 82 6868 or visit www.mymrt.com.my.
