

MEDIA RELEASE

LONG-TERM ROAD REALIGNMENT AT PERSIARAN SURIAN, KOTA DAMANSARA

Kuala Lumpur, 23 April 2013: Mass Rapid Transit Corporation (MRT Corp) wishes to announce a road realignment on Persiaran Surian from Pangsapuri Cempaka 7 until Pangsapuri Seroja 8, to be in effect from 26 April 2013 to 30 April 2014.

This realignment involves a stretch of 700 metres, for both directions of the road (LDP-bound and Sungai Buloh-bound). (Please see appended Map.)

This realignment is implemented as a result of the closure of the right-most lanes on both directions, to accommodate the construction of the MRT piers at the median of Persiaran Surian. New lanes have been constructed for both directions whereby traffic will be re-aligned to. *As such, there is no reduction to the number of traffic lanes at this stretch.*

The implementation of this realignment has been deliberated thoroughly with the relevant authorities. It will be constantly monitored to ensure minimal impact to traffic flow.

The work hours at this stretch will be from 8.00am to 6.00pm from Monday to Saturday. Should there be night works, it will be from 10.00pm to 5.00am subject to the approval from relevant authorities.

This realignment is a key part of our safety practice at all MRT construction sites, to ensure that any risk of public injury is minimised. Motorists are reminded to drive carefully near MRT worksites, and to follow directional signs. Safety barriers, hoardings and traffic cones will be installed at the worksites to ensure road users and pedestrians are well-informed of on-going works. In addition, a 24-hour MRT Ronda will be patrolling along the routes to attend to any emergencies.

MRT Corp wishes to apologise for any temporary inconvenience caused to the public during the construction of this world-class public transport facility that will benefit Malaysians at large.

The Sungai-Buloh Kajang Line will comprise 31 stations, and serve 1.2 million people along the route. It will also have strategic integration with Kuala Lumpur's existing rail transport network, namely the LRT, Monorail and KTM Komuter, as well as intra and inter-city bus routes. The end result will be better connectivity for KL and its surrounding cities, while reducing the number of cars that enter the capital.

For more information on traffic announcements, the public can visit the MRT website at www.mymrt.com.my or www.mymrt-underground.com.my, twitter @MRTMalaysia or twitter @MyMRT Underground or call the MRT Hotline at 1-800-82-6868.
