

MEDIA RELEASE

TRIAL PARTIAL LANE CLOSURE AT JALAN SEMANTAN

Kuala Lumpur, 13 May 2013: Mass Rapid Transit Corporation (MRT Corp) wishes to announce that the left-most lane at Jalan Semantan will undergo a trial partial closure for three (3) days from 15 May 2013 to 17 May 2013, from 10.00am to 4.00pm and 9.00pm to 6.00am daily. This 700-metre closure stretch starts in front of 10 Semantan to the junction of Jalan Damansara Endah (Petaling Jaya-bound). Please see map below and as appended.

This trial closure is intended to allow MRT Corp and its contractors to study the impact of the closure on traffic flow at Jalan Semantan. Subsequent to the success of the trial lane closure, a permanent road closure will take place for a period of one (1) year. The closure is necessary to facilitate land clearing, piloting, drainage work, bore piling and concreting work in preparation for the construction of MRT piers and the future Semantan station.

The closure is a key part of our safety practice at all MRT construction sites. It will ensure that any risk of public injury is minimised. Motorists are reminded to drive carefully near MRT worksites and to follow directional signs.

Safety barriers, hoardings and traffic cones will be installed at the work sites to ensure road users and pedestrians are well-informed of on-going works. In addition, a 24-hour MRT Ronda will be patrolling along the routes to attend to any emergencies.

MRT Corp wishes to apologise for any temporary inconvenience caused to the public during the construction of this world-class public transport facility that will benefit Malaysians at large.

The Sungai-Buloh Kajang Line will comprise 31 stations, and serve 1.2 million people along the route. It will also have strategic integration with KL's existing rail transport network, namely the LRT, Monorail and KTM Komuter, as well as intra and inter-city bus routes. The end result will be better connectivity for KL and its surrounding cities, while reducing the number of cars that enter the capital.

For more information on traffic diversion, the public can visit the MRT website at www.mymrt.com.my or www.mymrt-underground.com.my, twitter @MRTMalaysia or twitter @MyMRT Underground or call the MRT Hotline at 1-800-82-6868.
