**Map: Temporary Partial Night Lane Closures at Jalan Ulu Langat**

The night lane closures will be implemented in stages, involving one lane at a time. They are to facilitate preparation works for the construction of MRT piers.

A comprehensive traffic management plan has been studied by the Cheras-Kajang (Grand Saga) Highway and Lembaga Lebuhraya Malaysia (LLM) to ensure minimal disruption to traffic.

The closures are a key part of our safety practice at all MRT construction sites. It will ensure that any risk of public injury is minimised. Motorists are reminded to drive carefully near MRT worksites and to follow directional signs.

Safety barriers, hoardings and traffic cones will be installed at the work sites to ensure road users and pedestrians are well-informed of on-going works. In addition, a 24-hour MRT Ronda will be patrolling along the routes to attend to any emergencies.

MRT Corp wishes to apologise for any temporary inconvenience caused to the public during the construction of this world-class public transport facility that will benefit Malaysians at large.

The Sungai-Buloh Kajang Line will comprise 31 stations, and serve 1.2 million people along the route. It will also have strategic integration with KL's existing rail transport network, namely the LRT, Monorail and KTM Komuter, as well as intra and inter-city bus routes. The end result will be better connectivity for KL and its surrounding cities, while reducing the number of cars that enter the capital.
