

MEDIA RELEASE

THREE MRT PROJECT CONTRACTS AWARDED

Kuala Lumpur, 22 July 2014: Mass Rapid Transit Corporation Sdn Bhd (MRT Corp) has awarded three contracts for the Klang Valley MRT Project Sungai Buloh-Kajang Line, with a total value of RM67.2 million.

The awards were made by the One-Stop Procurement Committee (OSPC) which was chaired by Secretary-General to the Treasury, Tan Sri Dr. Mohd Irwan Serigar Abdullah.

The OSPC awarded the contract for the supply, delivery and supervision of installation, testing and commissioning of step down distribution transformers for all MRT underground stations and ancillary buildings (Package SDDT-U) to PTIS Engineering Sdn Bhd. The contract is worth RM7.4 million.

The OSPC also awarded the contract for the design, procurement, configuration, installation, testing and commission of the IT system for all elevated and underground stations as well as depots of the MRT Sungai Buloh-Kajang Line (Package SBK-S-13) to EV-Dynamic Sdn Bhd. The contract, which includes training and documentation for the system, is worth RM44.5 million.

Meanwhile, the contract for the supply, procurement, installation, testing and commissioning of the lift system for all MRT underground stations and ancillary buildings (Package LS-U) was awarded to Eita Elevator (M) Sdn Bhd. The contract is worth RM15.3 million.

With the latest decision of the OSPC, a total of 77 work packages have been awarded. One work package is currently being called while seven work packages have yet to be called.

SUMMARY OF AWARDS BY THE ONE-STOP PROCUREMENT COMMITTEE

About the MRT Project

MRT is a new rail transport system for the Klang Valley. It is part of the Government's Greater Kuala Lumpur/Klang Valley's National Key Economic Area (NKEA), under the Economic Transformation Programme. The Sungai Buloh – Kajang Line runs for 51 kilometres, from the north-west town of Sg Buloh to the south-east city town of Kajang. Upon completion, it will comprise 31 stations, and serve 1.2 million people along the route. It will also have strategic integration with the Klang Valley's existing rail transport network, namely the LRT, Monorail and KTM Komuter, as well as intra and inter-city bus routes. The end result will be better connectivity for Kuala Lumpur and its surrounding cities, while reducing the number of cars that enter the capital.
