MRT CORP AWARDS SEGMENTED BOX GIRDER CONTRACTS FOR SSP LINE

Kuala Lumpur, 29 March 2016: Mass Rapid Transit Corporation Sdn Bhd (MRT Corp) wishes to announce the award of two segmented box girder work packages for the construction of the MRT Sungai Buloh-Serdang-Putrajaya (SSP) Line as well as the MRT Sungai Buloh-Kajang (SBK) Line.

Firstly, Work Package SBG201 for the supply and delivery of segmented box girders for Viaduct Work Packages V201 to V205 was awarded to SPC Industries Sdn Bhd. The contract sum for the work package is RM199 million.

Secondly, Acre Works Sdn Bhd was awarded Work Package SBG202 for the supply and delivery of segmented box girders for SSP Line Viaduct Work Packages V206 to V210. The contract sum for this work package is RM170 million.

The awards were made following a One Stop Procurement Committee (OSPC) meeting chaired by Minister of Finance II Dato' Seri Ahmad Husni Hanadzlah.

MRT Corp Chief Executive Officer Dato' Sri Shahril Mokhtar congratulated the companies on their success.

"This batch of work packages comes very quickly after the announcements for the first two major work packages, namely the Viaduct Work Package V201 and V202.

"Although lower in terms of contract sum, these work packages are just as important for the construction of the SSP Line. It is good that companies with good track records have emerged successful in the tender process," he said.

In addition to the two work packages for the SSP Line, the OSPC also awarded two work packages for the SBK Line.

The first work package, for the construction of the Pasar Seni Link and other associated works between the existing Pasar Seni LRT Station and the Kuala Lumpur KTM Station, was awarded to Trans Resources Corporation Sdn Bhd. The contract sum for this work package is RM103.8 million.

The second Work Package is for the construction of an MRT feeder bus depot and related supporting buildings and facilities for the SBK Line at Kajang which was awarded to Potensi Cekal Sdn Bhd. The contract sum of this work package is RM62.5 million.

Earlier, MRT Corp had announced the award of Work Package V201 for the SSP Line to Sunway Construction Sdn Bhd for a sum of RM1.21 billion, while Work Package V202 had been awarded to Ahmad Zaki Sdn Bhd for a sum of RM1.44 billion.

The SSP Line is 52.2km in length, of which 13.5km will run underground. It will have 37 stations, 11 of them underground stations.

In total there are 66 work packages being tendered for the construction of the SSP Line. They include 10 viaduct guideway packages, one underground works package, two depot work packages, 10 station work packages, and 15 multi-storey park and ride work packages.

The remaining tenders are for Advance Works, Connectivity, Systems, Designated Suppliers and Designated Contractors.
