

# MRT Corp to award RM10b contract

**MRT Line 1 is 84 per cent completed and phase one from Sungai Buloh to Semantan is expected to start operations in December this year.**

**KUALA LUMPUR** — Mass Rapid Transit Corporation Sdn Bhd (MRT Corp) expects to award MRT Sungai Buloh-Serdang- Putrajaya (SSP) Line contracts worth RM10 billion within six months, CEO Datuk Seri Shahril Mokhtar said.

Of the contracts, two civil works packages and two system packages

cumulatively valued at between RM2.5 billion and RM3 billion will be announced in two weeks' time.

“Package 210 under the SSP Line involving works for a 2.6km stretch from Putrajaya to Cyberjaya city centre will be awarded within one to two weeks. So with the addition of Package 203 and Package 210, we have awarded

four contracts out of 10 packages,” he said.

MRT recently announced that it had appointed TSR Capital Bhd to carry out the earthworks and other associated works for the Serdang depot under Package DPT 203 worth RM90 million.

Shahril said MRT plans to give out all of the main contracts under the SSP Line or MRT Line 2 within six months.

To date, almost RM18 billion worth of contracts have been awarded under MRT Line 2, Shahril said, adding that the estimated construction cost for Line 2, at RM32 billion, is higher than Line 1 which cost RM23 billion.

“For MRT Line 1, we are at 84 per cent completion and I’m confident that phase one from Sungai Buloh to Semantan station will start operations in December this year,” he said.

Shahril said MRT Line 2 contracts worth at least RM25 million have been allocated to bumiputera contractors classified under Class G1 to Class G4.

He said the government has set up a minimum 43 per cent bumiputera involvement in the Line 1 project, but MRT Corp has surpassed the target.

Bumiputera participation in the Line 1 project stood at 48 per cent, accounting for RM10.5 billion out of a total of RM21 billion, Shahril added. — *Bernama*.
