

# Be proud of your sweat and tears working on line, says Najib

**KUALA LUMPUR:** Prime Minister Datuk Seri Najib Razak has praised the Mass Rapid Transit (MRT) Sungai Buloh-Kajang (SBK) Line, calling it a world-class infrastructure that will allow people to enjoy greater connectivity.

“Overall, I am very satisfied with the MRT SBK Line, which is developed and carried out by thou-

sands of our people since 2010.

“To all those involved, be proud of your achievement. Recall the sacrifices you made and the energy and time you spent (on this project).

“This is the result of your sweat and tears. I am proud of all of you,” Najib said on his blog, NajibRazak.com, yesterday.

He said this after testing out

Phase Two of the MRT SBK Line with his family on Wednesday.

Najib and his family had toured the new underground sections and hopped on one of the feeder buses that connected the stations to nearby areas.

A few of his blogger friends and social media influencers were invited for the ride.

Phase Two will be fully oper-

ational and open to the public on Monday. It will be launched by Najib the same day.

Najib, in his blog post, refuted claims that the project would have an adverse effect on people living in urban areas.

“Dr G. Balamurugam, who is an environmental consultant, praised the sophisticated MRT system.

“He also asked me how I, as the project’s driver, felt when it was initially opposed by residents in urban areas.

“For example, in Taman Tun Dr Ismail, there were claims that the MRT project would negatively affect the area. Clearly, this is not true as many of our people are benefiting from a more holistic connectivity.”
