

# Better homes for police personnel at new quarters

PERSONNEL who had to leave the Sentul police quarters to make way for the construction of an underground rail tunnel will enjoy a more spacious area with an extra room in their new homes.

A total of 270 families vacated the two-block, 16-storey quarters in June this year for the construction of the MRT Sungai Buloh-Serdang-Putrajaya (SSP) Line.

Mass Rapid Transit Corporation SSP Line project director Datuk Amiruddin Ma'aris said the new three bedroom apartments would measure 1,200sq ft, compared to the old quarters which were 850sq ft and had only two bedrooms.

“The new police quarters will be complet-

ed by December this year,” he said at a media briefing.

Amiruddin added that the 270 families are currently staying at the Teratai Residence apartments in Setapak while waiting for the new quarters in Taman Keramat AU1 to be ready.

Meanwhile, Amiruddin said a detailed structural analysis was done to determine the safest demolition method for the old quarters.

He added that the demolition was expected to be completed by December.

Amiruddin announced progress of the SSP Line was at 13.7% and it was proceeding according to schedule.

An excavator can be seen at the site of the Sentul police quarters in Jalan Sentul Manis, Kuala Lumpur, that will be demolished soon to make way for the MRT SSP Line.
