KUALA LUMPUR — Despite its infancy, the MRT system has already achieved a milestone of 21 million riders on its first anniversary.

On August 7, 2017, the Kuala Lumpur Monorail, with a 14.3-kilometre track and 17 stations, started operations. Since then, it has become an integral part of the city's public transport system.

Recently, Klang Valley MRT Corporation's General Manager, transportation, Datuk Datin Norlida Sezmakan, shared insights on the progress made in the past year.

"We are proud to have reached 21 million riders on our system," she said. "This has been a significant achievement for us and a testament to the success of our MRT system in meeting the needs of our passengers."
