MEDIA RELEASE

MRT CORP ANNOUNCES PUBLIC INSPECTION EXERCISE FOR CIRCLE LINE (MRT3)

Kuala Lumpur, 30 August 2024 – As part of the planning and development process for the MRT Circle Line (MRT3) project, Mass Rapid Transit Corporation Sdn Bhd (MRT Corp) will be undertaking a Public Inspection exercise to gather feedback from members of the public.

Beginning on 2 September and running through to 2 December 2024, this three-month exercise is a key opportunity for the public to review and provide feedback on the proposed alignment, site and context plans, and other essential project details.

The Circle Line (MRT3), currently still in the final planning and development stages, will be an orbital rail line that is designed to connect the existing Klang Valley public transport network and improve mobility and ease of travel for the city's growing population. Spanning 51 kilometres around the city's perimeter, the Circle Line (MRT3) will integrate with existing MRT, LRT, KTM, and Monorail lines through 10 strategically located interchange and connecting stations.

The Circle Line (MRT3) is poised to offer shorter alternative routes to key destinations through multiple integration points along the alignment while providing critical connectivity to underserved areas of the city.

In accordance with Section 84 of the Land Public Transport Act 2010, the three-month Public Inspection exercise will feature detailed information about the Circle Line (MRT3), including alignment maps, site plans, and project details.

As part of the Public Inspection exercise, MRT Corp has set up 35 designated locations throughout the Klang Valley. These include 8 MRT Info Kiosks and 27 MRT Info Trucks locations at key sites. The full schedule and locations for the Public Inspection exercise are available on the MRT3 Public Inspection Microsite at www.mymrt.com.my.

For those unable to visit the Public Inspection locations in person, project materials and details are accessible online via the dedicated microsite. Feedback can also be submitted through this platform throughout the three-month period. Additionally, you can call our Customer Careline at 1 800-88-6782 for any inquiries or clarifications.
