Please be informed that long-term intermittent partial lane closures on the Lebuhraya Tun Dr. Lim Chong Eu will be implemented from 25 January 2026 until 13 March 2026. The closure will take place between 12:00 midnight and 6:00 a.m., over a period of 48 days.

The traffic management plan is as follows:

The closures will involve the motorcycle and left-most lanes (towards Komtar), near the Indah Water Konsortium (IWK) water treatment plant. However, other lanes will remain open to traffic (as indicated in the attached map).

Motorists are advised to follow directional signage. During the closure period, the PML Project Emergency Response Team will be onsite to assist with traffic management. Safety barriers, traffic cones and flagmen will also be deployed to ensure the safety of all road users. For further information, please refer to the map below.
